Who lives in the 13th US Congressional District?

More and more travellers are choosing transit. Millennials in particular are opting for transit passes instead of driver's licenses. According to the [Who's On Board: 2014 Mobility Attitudes Survey](#), in the South alone **20% of people under 30 use transit at least once a week and 11% use it to commute at least 3-4 times per week.**

Still, some ride transit not because of its conveniences, but because it's the only way they can get around. Aging adults or persons with disabilities, those who cannot afford the costs of car ownership, and veterans that need transport to medical appointments all depend daily on their local transit systems.

Total population	700,391
Millenials	198,074 (28%)
65 years or older	59,288 (8%)
Veterans	43,795 (6%)
Below poverty line	122,672 (18%)
Living with a disability	41,927 (6%)
Less than one car per worker	16,359 households (7%)

Note: Transit data are aggregated by county and subject to overestimation in small districts. Demographics are reported for the district alone.

How much does transit cost in the area?

Transit expenses are divided into:

- **Capital** - includes infrastructure and equipment, such as buses and vans, facilities, and technology.
- **Operating** - includes daily costs required to operate the system, such as salaries for bus operators and mechanics, regular vehicle and system maintenance, and general administrative costs.

The figure below shows all funding (both capital and operating) categorized by funding source. For details on this funding data, visit atlregional.github.io/gta/#congress/013/funding.
